

## Testimonials

*I have hosted several of Pierre's Sound Healing Workshops and know, based on participants' responses, that profound healing occurs as a result of his work. I've consulted with him on one client, and our co-therapies have worked well. His sessions with this client brought about change that would have taken many hours of "talk therapy" to reach and unravel. Pierre is a man of integrity, authenticity, and skill -- a true healer whose work is very important in these times.*

*Anne Bewley, Harpwell Center,, Psychotherapist, Ph.D*

*Recently, I attended a gathering at which Pierre conducted a Sound and Light Ceremony. A lifelong awareness of the importance of right relation between body and Spirit and years of energy work did not prepare me for the depth and transformative power of Pierre's healing talent. Based upon the profound experience I had that evening, I see Pierre as being in the front ranks of the vanguard of those here to help us heal our bodies and souls and to achieve health and balance upon the Earth. I urge others to avail themselves of his gifts.*

*Claudia Moore, B. Din, MSW, Reiki Master*

*"During my work with Pierre, I felt masterfully held with the utmost respect and sensitivity. Pierre provides a truly skilled and safe environment for intense and transformative work. I am deeply appreciative."*

*Elizabeth Fowler MD LLC

*Going to Pierre's workshop without expectations brought many gifts to my soul. All of the ceremonies enhanced enlightenment, clairvoyance, creativity and intuition. Pierre you truly are a Shaman committed to your ancestry and assisting others to move forward. Thanks so much and many blessings.*

Pierre Garreaud is a Peruvian Sound Healer Shaman and Teacher. He is a gifted inspirational singer and has the talent of transporting individuals into high meditative spaces allowing them to connect to the deepest parts of their Soul. By using his voice, sacred chants and unique sounds he helps the participant's left brain to slow down, quieting the chatter, getting rid of collective mental static allowing the participant to step out of Time and space to a place where healing happens. Participants are subdued to travel into the inner worlds awakening aspects of their being that have been dormant or only accessible through deep meditation.

Pierre creates energetic shifts within the participant in a safe and sacred space. Energetic blockages are removed at a cellular level and by the use of light and sound the seven chakras and luminous field are cleared, aligned and brought back to healthy well-being. By working with sound and intent Pierre opens the acupuncture meridians allowing the "Chi" energy to move freely through the body promoting health at all different levels of the Body, Mind and Soul.

## Working with Pierre Garraud

Pierre works with utmost respect and integrity with all his clients. He is caring, dedicated, and truly walks the path of the Warrior. Pierre has a compassionate heart and has a way to empathize with his clients bringing true knowledge, meaning and understanding uplifting their spirit. He is a great listener, very intuitive and has the capacity to zoom in like a razor blade when looking for core issues. He dismantles energetic blockages, traumas with his sound and voice in a determined but compassionate way.

“ I walk the path of the Healed Warrior.... My medicine comes from the “Curanderos”, the Healers from the Rain Forrest and the Andean Mountains of Peru. I heal with my voice and music, by connecting to the lakes, the mountains and Mother Earth, Pachamama. I bring alignment and harmony to those who need it. My greatest joy is when I witness deep transformation in my clients, when I see them fly and soar like the Eagle. I am of service to my Creator and grateful for all the teachings I have received from all my beloved Teachers, Jesus Christ, Yogananda, Kundun Dalai Lama, Mary Magdalene and all the great shamans from all over the world”.

Pierre recently relocated to the Lake Region working full time offering group workshops and Sound Light Healing Sessions through New Hampshire, Maine and Massachusetts. Pierre travels nationally and internationally conducting workshops.
